gmi International Summit '25

Dear Friends:

At GMI, we offer you access to an **International Summit** featuring **8 hands-on courses** taught by excellent professors from prestigious Universities, along with **4 presentations from some of the most renowned speakers worldwide**, all in an exceptional setting recently used for the America's Cup sailing in the city of Barcelona.

We will also open the doors of our factory to all attendees who wish to visit. There, our team will provide a detailed explanation of our process, covering the **design, certification, manufacturing, quality control, and shipping** of GMI products to anywhere in the world within a maximum of 5 business days.

I would especially like to thank the **effort, involvement and enthusiasm of the entire GMI team** who have worked tirelessly to achieve such a comprehensive programme.

We look forward to welcoming you on **May 2nd and 3rd in Barcelona**, where we will also announce great news from GMI...

Kind regards,

José Luis Manglano
CEO & Partner

SUMMIT
3 MAY 2025

Dear Friends and Colleagues,

As Scientific Coordinator, it is both my honor and pleasure to welcome you to the **GMI International Summit '25**.

Barcelona has been chosen as the host city for our meeting, where we look forward to sharing and exchanging ideas and experiences to further our collective contributions to scientific progress.

We have planned **four keynote lectures** with world-renowned speakers, aiming to progressively cover topics such as bone regeneration, peri-implantitis, methods for hard and soft tissues, and prosthetic management aimed at prevention. We will also have the opportunity to engage with each speaker, sharing your questions, concerns, and thoughts.

On the same level, and with the intention of offering hands-on experience, we have invited prestigious Universities to prepare a compelling series of **practical workshops**, which I am certain will be of great interest to you.

I can assure you that GMI has spared no effort in organizing this remarkable event.

We welcome you here with open arms and great enthusiasm.

Happy Summit!

Dr. Juan López-Quiles
Summit Scientific Coordinator
